PRODUCT DATA SHEET - ECZ G D302

Garbodrain 3200

Product description	Garbodrain -Food waste disposer
Model No.	G3200
DESIGN	
Model Type	Stand-alone machine with self-contained sink
Mounting Type	Floor standing independent unit
Feeding Type	Continuous feed
Crushing Type	By Centrifugal force with the help of 2hp Three phase induction motor
Disposal type	Instant Crushing & Disposal On line
DESCRIPTION & MATERIAL	
Crusher Housing 6"	Steel Casting embedded with specially designed SS 304 serrated ring at grinding area With High speed uniquely designed sturdy rotating disc assembly & sieve in SS 304 running on 2 Ball bearings with special sealing arrangement
Topcover	Material holding cover in Casting bolted to Crusher housing
Body	Stand Alone unit with sink made in SS 304 mounted on 4 Anti vibro mounts
Out Let	2" GI nipple
TECHNICAL SPECIFICATIONS	
Over all machine Size	590mm x 590mm x 850mm (LxBxH)
Inlet	125mm
Out let size & Position	2" nipple at 240mm height from ground level
Machine weight	95kg
Motor	2hp / 2800rpm / 3 phase Induction Motor / Continuous duty / Drives crusher assembly through V Belt
Electricals	3m long 4 core cable Ready to connect to 3phase 2hp starter
Drain	2"
Capacity	150kg per hour by Continuous feed with 3 Litre holding capacity
Installation requirements	¾" water Tap at 950mm height / 3phase line with Starter 2-4.5A range / 2" Drain connection
